TSCA PCB Case Number: 07-17-T-702

Letter of Compliance/Notice of Compliance

Dear Ms. Weiss:

On September 14, 2016, a representative of the U.S. Environmental Protection Agency inspected the referenced facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act and Section 11 of the Toxic Substances Control Act, 15 U.S.C. § 2601 et seq.

I have reviewed the inspection report and determined that no violations of RCRA and violations of TSCA were documented. At the time of the inspection, the inspector presented you with a Notice of Violations which described the violations. I have reviewed your response to the violations. I determined your responses adequately addressed the violations. Therefore, no further submittals are required at this time. Please note that the EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection, regardless of whether the violations were subsequently corrected.

I would also like to make you aware of revisions to the hazardous waste regulations that went into effect at the end of May 2017. The following link will take you to a web site where you can find links to the new regulations, summaries of the changes to the regulations, and other helpful information:

<https://www.epa/hwgenerators/final-rule-hazardous-waste-generator-improvements>

I would like to remind you that the referenced facility is responsible for maintaining compliance with all applicable hazardous waste regulations and the the PCB Final Rule. If there are any questions regarding this letter, please contact me at (913) 551- 7517, or by email at matthews.marc@epa.gov.

Sincerely,

RCRA 10/17/2017
